

MODEL 2590

22" Capacity Whole Tree Chipper

Bandit's **most popular whole tree chipper** is the Model 2590. Officially rated as a 22" capacity whole tree chipper, the Model 2590 actually has a 26.25-inch by 30-inch chipper throat opening so it easily handles large whole trees, tops, and logging slash. It features Bandit's **unique Slide Box Feed System**, and is available with a dedicated micro chip drum for biomass applications. Depending on engine options, the Model 2590 can fully load chip vans in 18 to 20 minutes and the average chip van holds 32 to 35 tons a load – without the need for auxiliary chip throwers.

SUPERIOR PRODUCTION

The model 2590 is capable of filling a full length in van in 18-20 minutes, while holding 32 to 35 tons a load. Because of Bandit's powerful feed system and horsepower options. The wide throat opening means more material can be fed, and the standard 7.5' infeed chain quickly conveys material to the infeed.

FULLY PACK TRAILERS

Bandit is known throughout the industry for packing chip trailers fuller and reducing the number of trips to the dump site. And Bandit can do it without the need of horsepower-robbing, fuel chugging chip accelerators.

MAXIMIZE YOUR UPTIME

Bandit chippers are constructed to withstand rigorous chipping every day, all day. We use only the highest quality components and materials during construction to help ensure that your machine will be ready to go to work when you are.

Standard & Custom Colors Available

Choose from two standard colors, or select a custom color to match your fleet.

Bandit Yellow

Green

CONFIDENCE TO KEEP RUNNING

All Bandit Whole Tree Chippers come standard with an industry leading 5-year "GUTS" warranty covering the Bandit fabricated components of the drum and slide box feed system. These components are so durable and rugged Bandit is proud to offer this extended warranty as a standard feature

OPTIONAL SUPER SINGLE TIRES

COMMITTED TO QUALITY & PRODUCTIVITY

Since 1983, Bandit has manufactured equipment for a multitude of wood waste processing markets. The vision since the beginning, is to build quality, highly productive, easy to maintain equipment providing years of dependable service.

The commitment for quality, innovation and dedication is instilled in every employee and is one of the main reasons why Bandit became an Employee-Owned Company (ESOP) in 2018. These core values ensure each Bandit machine will leave the factory ready to exceed your expectations.

OPTIONAL CAB & LOADER

Bandit offers an optional cab and loader on the Model 2590 to make this machine the ultimate all-in one machine. Operators have an exceptional view of the action from the cab mounted above the chipper, and intuitive controls help even new operators feel like pros in no time. And when the work is done, these cabs fold down for transport!

TEST OUR METAL

When you choose a Bandit whole tree chipper, you'll experience more uniform chip production, smoother and more efficient chipping, long-lasting components and improved fuel economy. We invite you to see for yourself by scheduling a demo with your nearest authorized Bandit dealer.
